

What can you put in your Food Waste Disposer?

An InSinkErator Food Waste Disposer is a must-have appliance for the modern kitchen. Fitted easily and discreetly under your sink, a waste disposer effortlessly grinds food waste into tiny particles that are automatically flushed away down the drain to the local waste treatment system.

A cleaner, more convenient and responsible way to dispose of food waste (not to mention no more smelly bins)!

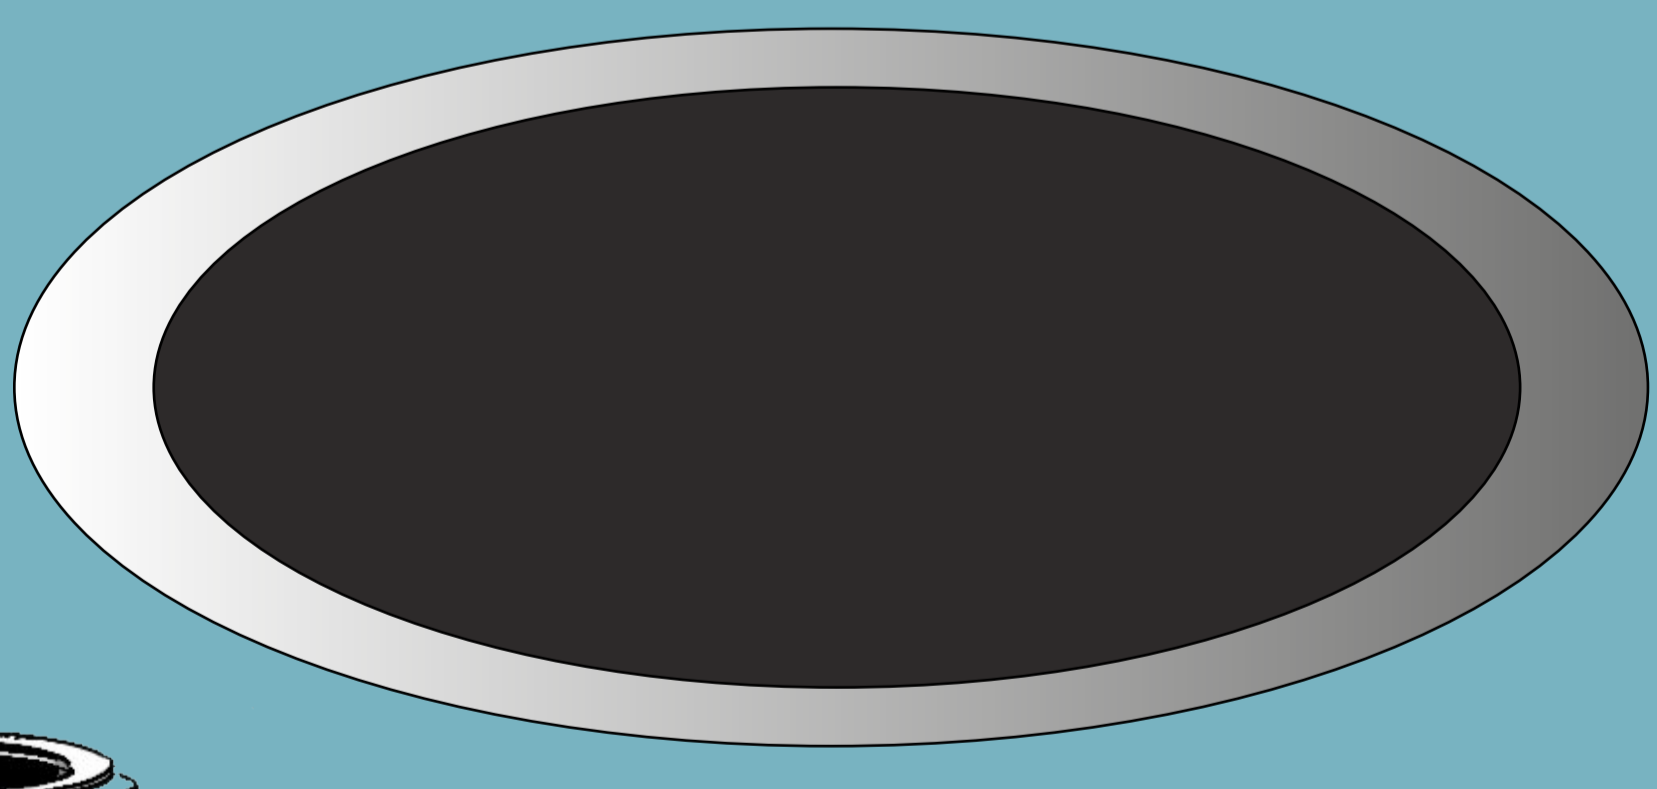

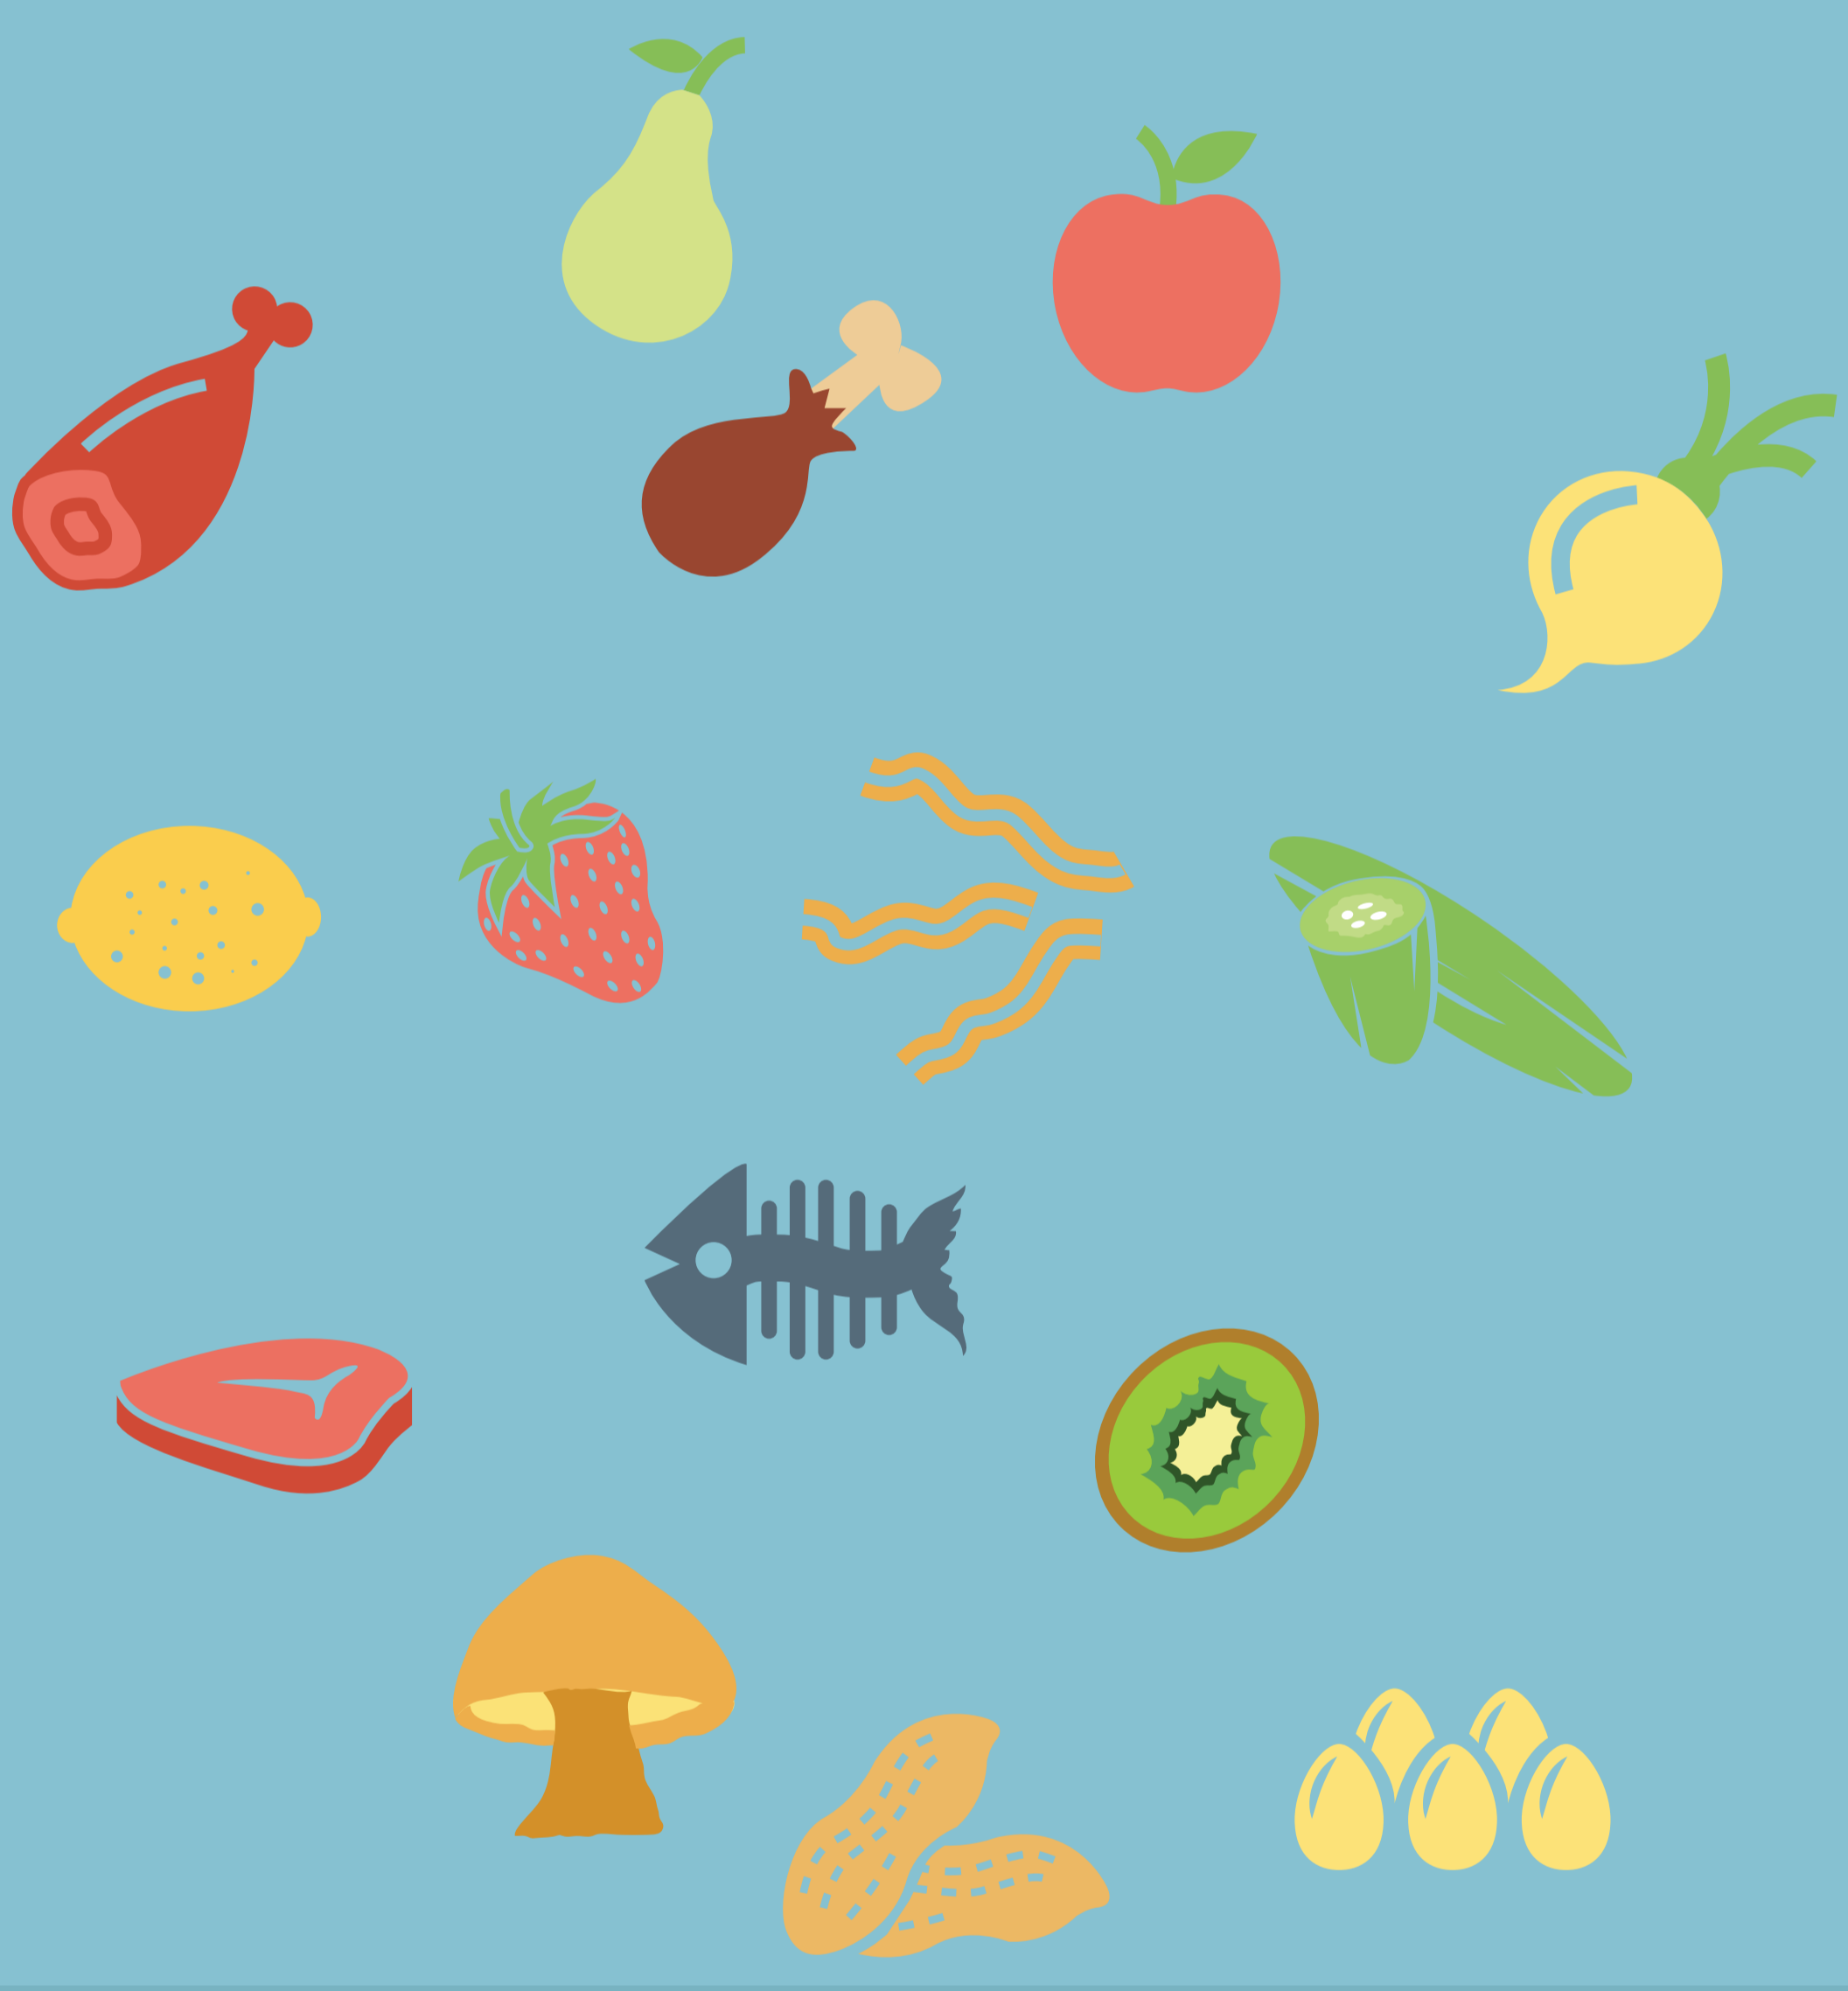

What you can send down your disposer!
